

# Odoo consultant ERP CRM

Job type: subcontract

## Job description

Bollaert BV sells water tanks, diesel tanks and all kinds of tanks in 3 countries via its proper web shops:

- [www.tankkopen.be](http://www.tankkopen.be)
- [www.cuve-shop.fr](http://www.cuve-shop.fr)
- [www.cuve.be](http://www.cuve.be)
- [www.tankkopen.nl](http://www.tankkopen.nl)

To optimize the relationship with our customers, we're in the process of analyzing CRM - ERP tools. We'll test the Odoo integration on 2 specific Woocommerce webshops.

An external Odoo partner is taking care of the connection (standard connector with some tweaks) between the webshops and Odoo.

## Procedure

- With our entire team, you'll identify our main business goals and rank them in order of importance
- Testing of Odoo with 2 live webshops
- Prepare for user adoption. Your key role here will be to explain the advantages to the team. We have a very competent team. Using their skills and knowledge will lead to a successful implementation
- Layout the process flow and explain why you deem this flow to be the right one. Adapt where necessary
- Explain why this CRM and process flow is and WILL BE the right ones, also in the future.
- Review compatibility with current software
- Check reporting capabilities. Reports based on our business data will be key
- Implementation and follow up

We are looking for a talented "self-made man/woman" to set up and implement the above procedure. Thorough experience with Odoo implementation in a SME environment is necessary.

## Type of employment

1 - 2 days & week for long term.
